

We are not just human  
We are not just worker  
We are not just student

We are...

We are warriors  
wake up to fight with evil  
wake up to fight with evil  
Evil,evil...

Protect the lonely people  
Help the poor people  
You are not callous  
You are not robot  
Remember yourself  
You are warrior  
You are fighting with evil  
Evil,evil,evil...

They fighting for a bite of bread  
And others fighting for factories  
where is the justice?

where is the justice?

we must fight for weak people

we must fight for weak people

We will win this war together

We'll live without the bad guys

but

but

You should wake up

You should to fight with evil

We are warriors

We are not callous

We will win this war together

We will provide the justice

Justice

We must protect from the dark
